

**What is claimed is:**

1. A car wash comprising:

a supporting mechanism including a fixed base and a supporting disc rotatably mounted to the fixed base, the supporting disc being stoppable  
5 in any orientation relative to the fixed base, the supporting disc including a top side for supporting a car to be washed; and

a washing mechanism for washing the car supported on the supporting disc.
2. The car wash as claimed in claim 1, wherein the supporting disc includes an  
10 axle on an underside thereof, the fixed base including an axle seat for rotatably receiving the axle.
3. The car wash as claimed in claim 1, wherein the supporting disc includes a ring on an underside thereof, a plurality of teeth being defined in an inner periphery of the ring, a drive gear being mounted in the fixed base and  
15 meshing with the teeth of the ring.
4. The car wash as claimed in claim 1, wherein the supporting disc includes a plurality of guides on an underside thereof, the fixed base including an annular track along which the guides move.
5. The car wash as claimed in claim 2, wherein the supporting disc includes a  
20 ring on the underside thereof, a plurality of teeth being defined in an inner periphery of the ring, a drive gear being mounted in the fixed base and meshing with the teeth of the ring.
6. The car wash as claimed in claim 2, wherein the supporting disc includes a  
25 annular track along which the guides move.

7. The car wash as claimed in claim 3, further including a step motor for driving the drive gear.
8. The car wash as claimed in claim 5, further including a step motor for driving the drive gear.
